Examiner Note: You must sign this form unless it is an Attachment to a signed Office action.

Examiner's signature, if required

Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Discussed how Applicant's Representative considered claim 1 to be patentably distinct over the Ku and Gubitosi et al references. Also discussed a proposed amendment to claim 14 to render it patentably distinct over the Peltier reference. Discussed amending claim 1 to rid the claim of some of the "for" language and positively define those features of the structure. Claim 1 and future amended claim 14 appear to be patentable over the prior art of record. However, Applicant will file an official amendment and response to the office action upon which an updated search will be performed. .
